CAREER OBJECTIVE

To obtain an entry-level position in an esteemed organization that will help me utilize my technical and professional skills and be a member of a team which dynamically works towards the growth and success of the organization. I aim to contribute effectively to real-time projects while continuously enhancing my knowledge in emerging technologies. With a strong foundation in programming and web development, I am committed to delivering quality work and growing both personally and professionally in a collaborative environment.

EDUCATION

2022-2026
Sathyabama Institute of Science and Technology

Computer Science and Engineering

2020-2022
Sasi Junior College

Board of Intermediate

20219-2020
Sasi English Medium High School

Board of Secondary Education

PROJECTS

Prediction on h1n1 vaccination(2023)

Prediction on h1n1 vaccination using logistic regression algorithm in machine learning. Here I predicted how many vaccinated and with this information can know how many can get vaccination for covid 19 virus.

Orphanage Management System (2024)

Developed a full-stack Orphanage Management System that connects donors with orphanages, enabling easy search and secure online donations. Implemented database integration for real-time tracking of donations and orphanage details, improving transparency and user experience.

Bar Code Generator (2025)

Built a Python-based Bar Code Generator integrated with AWS services to generate, store, and retrieve barcodes efficiently. Automated the barcode creation process with cloud storage support, improving scalability and accessibility.

SKILLS

- HTML
- CSS
- JavaScript
- Python(Basics)
- C Programming
- Bootstrap
- SEO Fundamentals
- SQL(Basics)
